Quality and craftsmanship since 1853

Spaas, rooted in the picturesque town of Hamont in Limburg, Belgium, proudly celebrated its 170th anniversary a few years ago—a milestone that reflects our rich heritage and continuous evolution. What began as a pioneering wax bleaching business serving monasteries and abbeys grew into a second generation specializing in hand-rolled church candles. The third generation shifted focus to functional emergency candles for domestic use, and over time, we introduced more and more value-for-money lifestyle products, blending tradition with innovation.

> We offer beautiful shapes, charming colours and delightful scents, but it's all about the power of little flames that give real connection.

Sarah Spaas, Sales Manager

Innovation, steady growth and automation paved the way for the prominent place today in the European candle market. Ben and Sarah Spaas are the proud shareholders who can rely on 350 dedicated employees in Belgium and Poland. Even the young sixt generation is already inspired by the precious heritage and unstoppable creativity. Family is an integral part of the DNA of Spaas. This is reflected in loyal partnerships in more than 40 countries. Stimulating more connection between people is the sincere mission of our authentic brand.

Sustainability as strategic anchor

At Spaas we strongly believe that the pursuit of quality, sustainability and corporate social responsibility is a sustained effort by an entire team. With our in-depth sustainability report we practice what we preach: producing with more natural materials, less plastic, smarter packaging, solar energy, conscious water use and well-thought-out transport.

> Sustainability and growth can indeed go hand-in-hand.

Ben Spaas, CEO

We established a roadmap with short-, medium- and long-term goals. The EcoVadis Platinum certification in 2025 is already a great step in our non-stop process of improvement. A worthful recognition of the achievements in four crucial areas: environment, labour and human rights, ethics and sustainable procurement.

Want to know more about our sustainable achievements and tangible plans? Check our sustainability report on spaas.eu.

For over 170 years, Spaas stands for real and authentic connection. Today, more than ever, we stand for the unifying power of every flame.

We dream of a world where everyone can and may feel connected. Because we too are still amazed at what a flame can do.

Spaas, what a flame can do

“

As the days get shorter, snuggling up under a blanket with the warm glow of flickering candlelight is my go-to ritual. I really love it!
